## Summary Report on Industrial Visit

IIC Technologies provides geospatial solutions and services to organizations across aerospace, defense, government, infrastructure, and utility sectors. IIC Technologies provides end-to-end geospatial solutions (feasibility studies, planning, and engineering, monitoring, asset management, etc.) for the infrastructure owners and operators across key industries

Students from the 3/4 IT-A has visited on 31-08-2023 along with faculty coordinator Mr A Durga Praveen Kumar and Mr.s V.Alekya

**Objective:** To get an industrial exposure among the students.

**Outcome:** Students have gained knowledge on real-time environment, and Clients interaction with development Team. They have also seen the working environment of a software company and the working culture.

## Department of Information Technology

### Impact Analysis

In this Industrial visit, Students have gained knowledge on real-time environment and Clients interaction with development team. They have also seen the working environment and current running projects in different domains. Student got awareness on new technologies that are introduced in the company and also got knowledge on projects like Google maps, Lands survey using drone systems which are developed by IIC Company.

#### FEEDBACK

Is this industrial visit useful?

- Yes
- No

## Any Suggestions

30 responses

No

Nothing

Try giving longer sessions rather than winding them up in half an hour

Nothing else

Increase the duration please

As the workspace is restricted to visit, we missed a realtime experience, please arrange some new methods to create a realtime environment

It would be better if there were show us more, that day they were busy

Good

To provide visits to companies that offer real time work in their office and how the process is actually
