OUTREACH PROGRAM

We had the privilege of visiting ZPH School to engage with students in higher grades and deliver a series of lectures focusing on technology, engineering, computers, and current trends in the field of technology.

The purpose of this initiative was to inspire and educate young minds about the world of technology and its ever-evolving landscape. The event was organized in collaboration with School. The agenda consisted of interactive lectures, each lasting approximately 60 to 80 minutes.

The lectures were tailored to suit the comprehension levels of the students and were designed to captivate their interest while providing them with valuable insights.

Throughout the lectures, interactive elements such as quizzes, real-life examples, and Q&A sessions were incorporated to keep the students engaged and encourage active participation. Students enthusiastically shared their thoughts, asked insightful questions, and showed a keen interest in the topics presented.

"Technology is best when it brings people together."

Department of Information Technology

Effect of this event is to dissipate knowledge on current technology and trends to the Government school students. As part of this few students of IT from each section are identified and informed to share their knowledge on few existing advance technologies like Artificial Intelligence, Machine Learning, Block chain Technologies.
