Professor

Introduction of the Speaker

Sriram Cherukuvada is an accomplished Director specializing in Data Mining and Analytics, currently holding a key position at the Real Time Governance Society, based in the AP Secretariat and closely connected to the Chief Minister's Office.

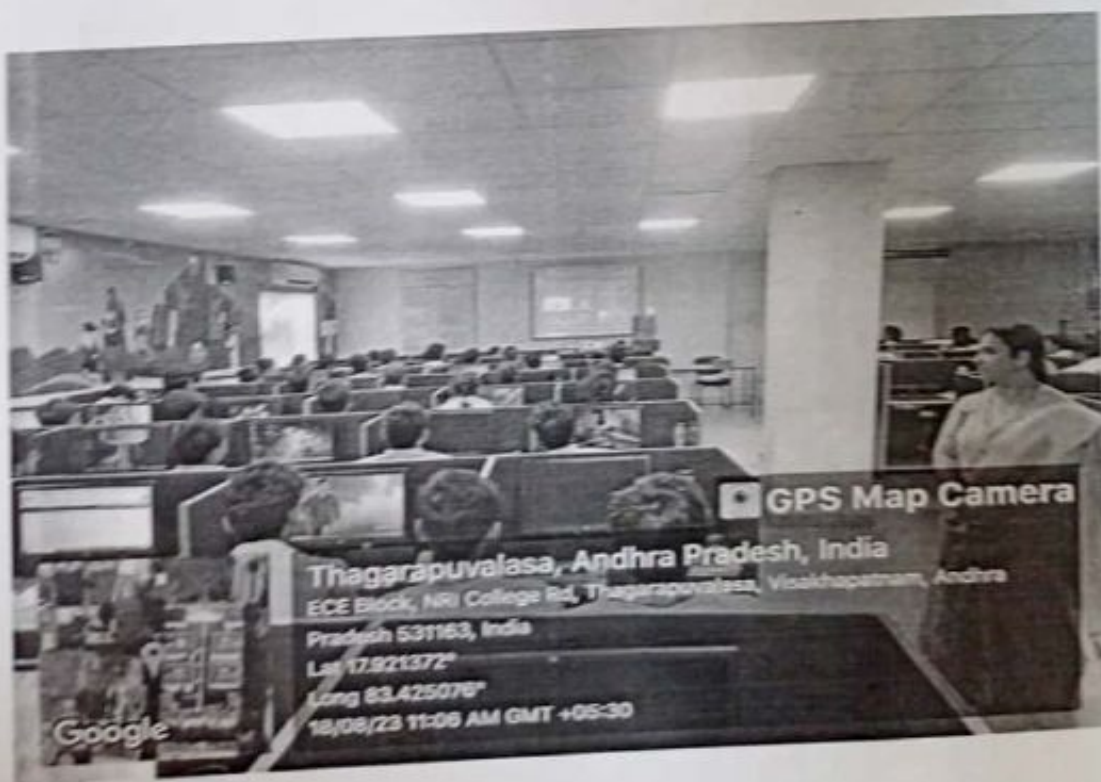

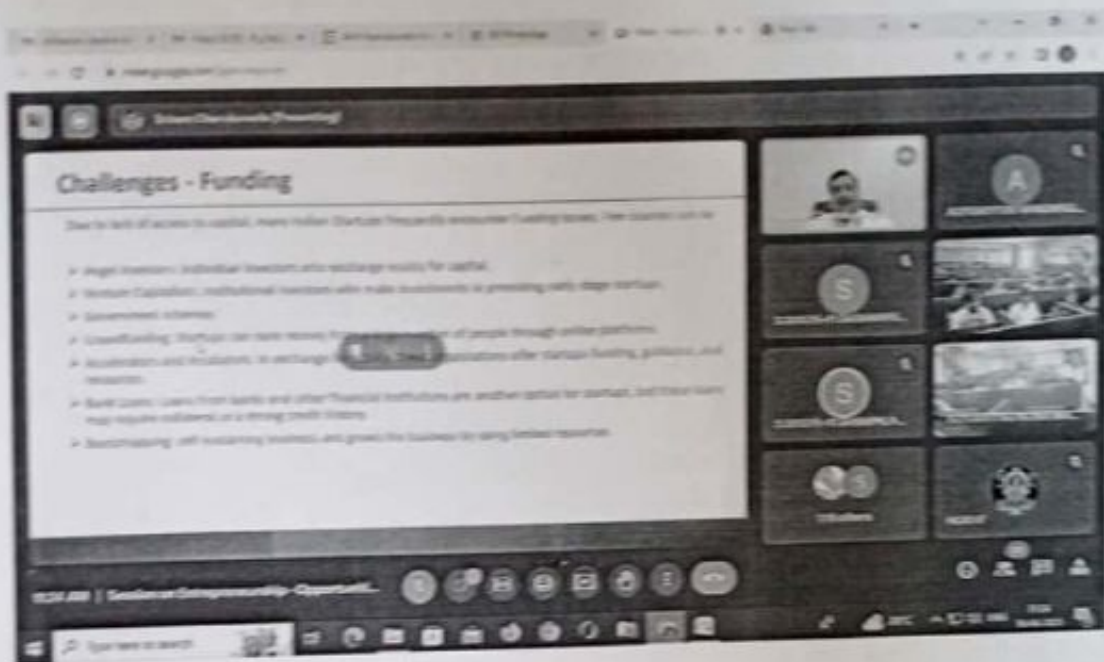

Sriram's academic journey began with his pursuit of a Master's in Computer Applications (MCA) from the prestigious National Institute of Technology (NIT), Rourkela.

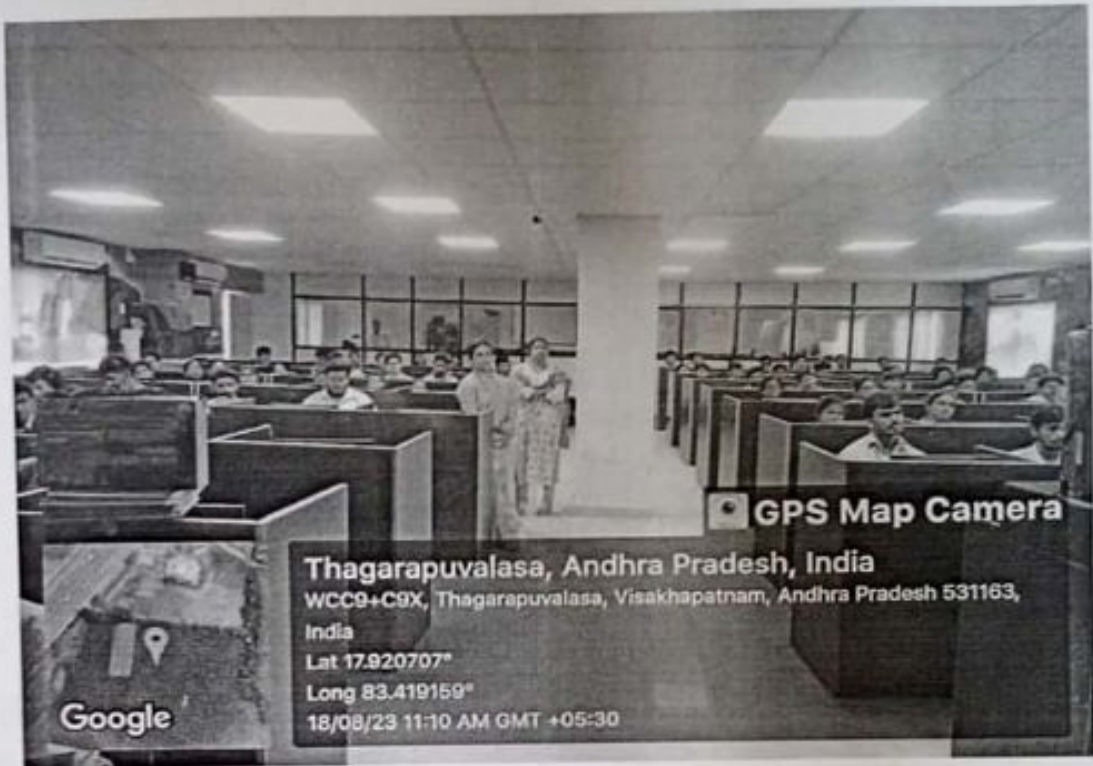

Before joining the AP Government, Sriram gained invaluable experience by working with some of the top 15 companies listed in the Fortune 500. His diverse roles in these renowned companies included database architecture, data virtualization, database programming, data migrations, and business analytics.

Sriram's professional journey began in the realm of public sector enterprises, where he laid the groundwork for his illustrious career. Afterward, he ventured into the global arena, collaborating with companies in various countries, including Malaysia, Singapore, the USA, and Sweden.

Now, as a Director of Data Mining and Analytics at the Real Time Governance Society, Sriram plays a vital role in transforming the way governance is approached in Andhra Pradesh. By employing advanced data mining techniques and analytical tools, he ensures that the government is equipped with real-time information to make well-informed decisions and drive positive outcomes for the citizens of the state.

Impact Analysis

Entrepreneurship enhances the overall standard of living, facilitates access to goods and services, and fosters economic progress. By providing services to disadvantaged areas and creating environmentally friendly products, many entrepreneurs also have a beneficial impact on their local communities and enhance their quality of life.
