ORGANIZED BY
DEPARTMENT OF INFORMATION TECHNOLOGY

the importance of Artificial Intelligence and its applications in real life, Machine Learning and concepts.

Course Objective

This introductory course input is intended:

1. To have a basic proficiency in a traditional AI language.
2. To have an understanding of the basic issues of knowledge representation and blind and heuristic search, as well as an understanding of other topics such as minimax, resolution, etc. that play an important role in AI.
3. To give basic knowledge about the machine learning models and theory that forms the foundation of machine learning.
4. Identify and apply the appropriate Machine learning technique to classification, regression.

Syllabus

Module-1: Introduction to artificial Intelligence: Introduction, history, intelligent systems, foundations of AI, applications, tic-tac-toe game playing, development of AI languages, current trends in AI.

Module-2: Problem solving- state-space search and control strategies: introduction, general problem solving, characteristics of problem, exhaustive searches, heuristic search techniques.

Module-3: The ingredients of machine learning. Models: the output of machine learning, Features, Binary classification, and related tasks.

Module-4: Handling more than two classes, Regression, Decision trees.

● Outline problems that are amenable to solution by AI methods, and which AI methods may be suited to solving a given problem.

● Apply the language/framework of different AI methods for a given problem.

● Illustrate the steps to handle binary, multiclass classification algorithms with an application.

● Analyze the data and predict decisions using tree, rule and linear classifier models.

About ANITS

Anil Neerukonda Institute of Technology & Sciences (ANITS), Visakhapatnam is owned by Megha Engineering and Infrastructure Limited (MEIL) which is one of the top infrastructure and manufacturing company in India with headquarters at Hyderabad. The institute was established in the academic year 2001-02 by Anil Neerukonda Educational Society (ANES) which was founded by Dr. N.B.R. Prasad, an NRI Philanthropist from the USA, with industrialists and eminent educationists in memory of Late Anil Neerukonda, S/o. Dr. N.B.R. Prasad.

Department of Information Technology

Syllabus

Module-1:

Introduction to artificial intelligence: Introduction, history, intelligent systems, foundations of AI, applications, tic-tac-toe game playing, development of AI languages, current trends in AI.

Module-2:

Problem solving- state-space search and control strategies: Introduction, general problem solving, characteristics of problem, exhaustive searches, heuristic search techniques.

Module-3:

The ingredients of machine learning: Tasks: the problems that can be solved with machine learning Models: the output of machine learning, Features: the workhorses of machine learning, Binary classification, and related tasks: Classification, Scoring and ranking.

Module-4:

Handling more than two classes, Regression, Decision trees, introduction to Model ensembles

Summary Report on Value Added Course

The Department of Information Technology has organized a value added course "Introduction to AI & ML" from 26-02-2024 to 29-02-2024 and it was taught by Dr. P.Satish kumar in offline mode. The students paid concentration and at the end of the course, the students are gone with an examination. Students got participation & Completion certificate after the end of the course.

Object of the course:

1. Understanding the basic concepts of Artificial Intelligence.
2. Understanding the basic concepts of Machine Learning.

Outcome of the course:

Students gain knowledge on the concepts of Artificial Intelligence, Machine Learning and applications of the above topics.
